ASSA ABLOY, the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.
NEW PANIC EXIT DEVICES
QUICK AND LITE
BENEFITS FROM START TO FINISH

The new panic exit devices developed by TESA add a modular design under the same platform, giving you many benefits from the moment you buy them.

SOLUTIONS FOR ALL TYPE OF DOORS
Aluminum profile, PVC, wood and fire-rated doors. We have a solution for any door.

Different combinations depending on the number of locking points allow to use the new panic exit device in single leaf or double leaf doors.

OUTSIDE TRIM: MODULAR
LEVER HANDLE
Different options available, including clutching system, lever handle, knob, exchangeable cylinders allowing master keying, ...

INSTALLATION
NO ONE MAKES IT EASIER
FITS EASILY ON THE DOOR
To install the panic exit device, base plates are fixed to the door so the screws can be placed at different positions leaving the door ribs free. Next step is to fit the panic exit device on the baseplate. Quick and easy.

PRICE
PAY JUST FOR WHAT YOU NEED
ONE SOLUTION FOR EVERY SINGLE NEED
The new range of panic exit devices developed by TESA is based on a standard product, allowing to add different options to get the proper solution to your needs. This possibility allows our product to be customized so you will only pay for what you need.

OTHER FACILITIES
The strikes are ready for different doors, and are designed to be used in different rebate sizes.

The narrow, small and low projection covers shown a soft design, and fit very well in different door styles.

MODULARITY
MADE-TO-ORDER PRODUCT
LIMITED STOCK
A limited stock of component parts allows us to design a variety of solutions.

SINGLE PLATFORM
LITE and QUICK series panic exit devices have been designed on the same platform, so either one can be used in the same installation. Architects and installers can choose either model because both of them use the same fixing system. The accessories for both models are also identical, making warehouse management easier and providing new benefits to installers.

OUTSIDE TRIM: MODULAR LEVER HANDLE
Different options available, including clutching system, lever handle, knob, exchangeable cylinders allowing master keying, ...
