

Fire Rated Double Door

ASSA ABLOY

Solution family: Interior door solutions

Solution group: Double-Steel-FR-Self Closing

Description

ASSA ABLOY Spain solution for two-leaf RF Doors, for the compartmentalization of sections and premises.

Activated by handles in both leaves. Application according to EN 179. Locks, counterlocks and automatic rods. Door closer with locking selector.

Typical application markets

For all kinds of buildings, particularly Hospitals, Hotels, Offices, Institutional Buildings, Stations, Airports, Leisure Spots and Residential.

Hardware set

- Firebreak lock, Standard: EN 12209, EN 1125
- Firebreak counterlock with rods and retainer, Standard: EN 1125
- Patented security cylinder, TESA's TX80, Standard: EN 1303
- Handle with keyhole for RF Doors, TESA's SENA series, AISI 316 quality, Standard: EN1709 (Use Category: 3)
- ASSA ABLOY Cam-Motion® DC 500 door closer and guide, Standard: EN1154, DDA/CEN PR 15894, EN 15804 (EPD-ASA-20130275-IBC1-EN)

SMARTair™ Wall Reader

Pro Wireless Online

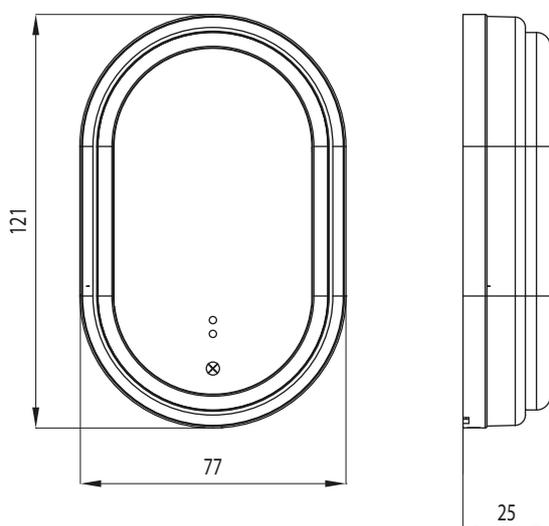

ASSA ABLOY

SMARTair™
Your Access. Your Control.

ASSA ABLOY, the global leader
in door opening solutions

SMARTair™ wired wall readers with RFID reader are suitable for automated doors, turnstiles, barriers, elevators or any access in which the locking or blocking element is an automatism. The wall reader incorporates a relay and a control unit which manages both the reader and the relay.

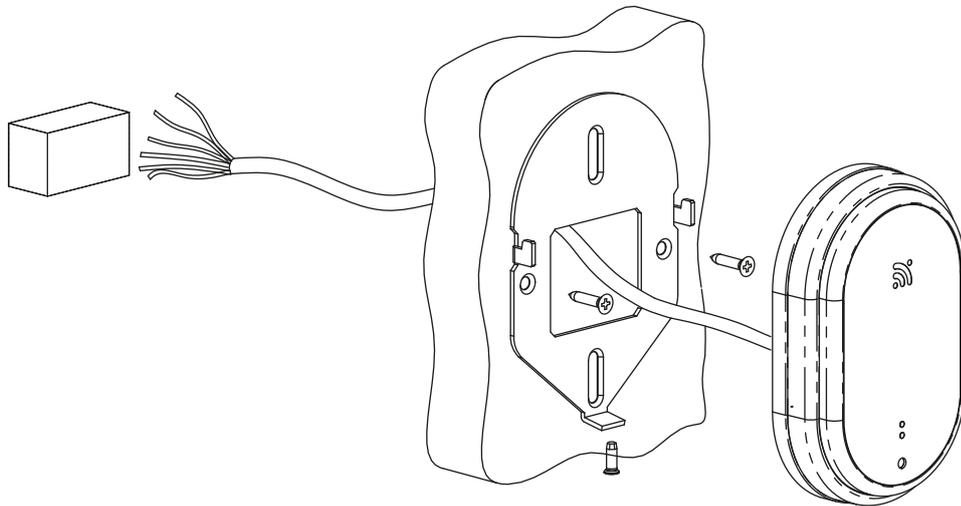

Technical data - SMARTair™ Wall reader

	Traffic volume	High
	Exterior usage	IP55 (Wall reader) Up to 85% humidity -20°C to + 80°C (Wall reader) -10°C to + 80°C (Relay board)
	Hardware compatibility and installation	To be combined with electromechanical devices to unlock the door (e.g. electric strike plates, electromagnetic locks or escape routes) Cabling needed
	Power supply	Cabled 12-24 VAC – VDC: powered through relay board Max power consumption (reader + relay board): 500mA @ 12V / 250mA @ 24V
	Multi-authentication	No
	Status information	Door position (door sensor not included) Request to exit Tamper
	Certifications	CE (EMC, R&TTE) ROHS, REACH, WEE
	RFID technologies	HID iCLASS® MIFARE Classic and Ultralight SKIDATA DESFire
	Upgradability	SMARTair™ Wall readers* can be upgradeable from Standalone > Offline / Update On Card > Wireless Online by: · Adding RF module · Firmware upgrade

* R4 circuit required.

Electronic Technical Characteristics

Reader Module

- Reading distance: 2-4 cm read/write distance with standard RFID credentials.
- Emergency opening: Jack connection is available to connect the portable programmer and emergency kit.
- RFID reader with LED (green/red) and sound buzzer for different warning signals: access authorized or denied, etc.

Control Unit

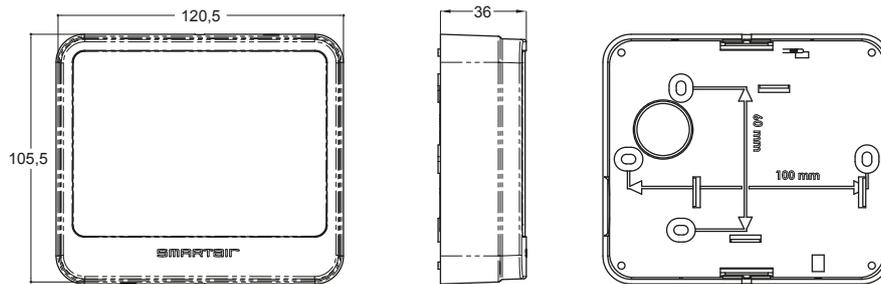

- Upgradeable firmware.
- Non-volatile memory. The wall reader can be programmed to operate in 2 modes:
 - Normal mode: 1500 users and 600 events.
 - High traffic door: unlimited number of users filtered into 48 groups (permissions). Stores 1000 events.
- Real-time clock and calendar:
 - 14 time zones with 5 time periods (week days and holidays selectable).
 - State tables: configure 20 changes of operating modes in a door per day (switch door from lock to unlock).
 - Yearly calendar: is updated every month automatically by the wireless system.
 - Automatic DST: Daylight Saving Time change. Updated with calendar.
 - Maintains clock/calendar for 96h without power supply (internal battery shall be previously charged within 1 day).

Operating modes:

- Standard: Default operating mode. No access until valid credential presented, then allows to open the door for 4-10 seconds (configurable).
- Standard ADA: Standard with double opening time.
- Passage mode: door is always in open mode (configured by time zones or by authorized user after double badging).
- Double user: Two valid credentials needed to open the door.
- First user: door in standard mode until first valid user enters, then will remain in passage mode (until closed by authorized user or automatically by time zone, state tables).

RF Module

- 868MHz or 915MHz selectable in field.
- 30 configurable channels:
 - From 868,00 to 875,25 in steps of 0,25Mhz each channel.
 - From 915,00 to 922,25 in steps of 0,25Mhz each channel.
- Auto-link with communication Hubs (easy setup).
- Upgradeable firmware.

The relay board is the ideal complement for wall readers when it is necessary to manage an electrically controlled locking element from a single point, deciding for each user which elements must be activated.

Encrypted communication between reader & relay board, no manipulation on the wiring between these devices can open the door.

- Box & mounting:
 - Relay board is supplied in a box that allows surface mounting.
 - The electric board can be mounted in DIN rails (DIN rail enclosure not included). Tamper switch must be overridden or added separately.
- The two relays SMARTair™ board is a new generation product with following connections:
 - Connector for reader.
 - Power supply connector.
 - Door position (sensor not included): Intrusion or door left open will be reported.
 - Push Button: Request to exit.
 - Tamper alarm against relay board manipulation: tamper included in the board.
 - 2 output relays:
 - Relay 1 commands the electromechanical lock (not included).
 - Relay 2 can be used for other purposes. This relay functionality is configured by software or the dip switch on the board.
 - Configuration Dip switch. It can be configured from the Management Software or by this Dip.
- Other type of relay boards available for wall readers, can be acquired as spare part:
 - Simple 1 relay board with reduced size.
 - 8 output relay board: typically used in elevators. 5 of this elevator boards can be connected in serial (40 output relays).

SMARTair™ Relay Board.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

ASSA ABLOY

TESA is the leading Spanish manufacturer and supplier of locking solutions and access control technology for the residential and institutional markets. TESA has a wide and complete range of products including panic exit devices, cylinders, security locks, knobs and handles, door closers, access control solutions with electronic cylinders, electromechanical and electromagnetic solutions and armoured doors. TESA exports to markets such as Latin America, Middle East, Europe, Asia Pacific and the North African countries.

SMARTair™ Your Access. Your Control.

SMARTair™ is a powerful access control system that offers an intelligent, yet simple, step up from keys. SMARTair™ is the cost-effective alternative to a full high-security system. SMARTair™ contactless, smart card technology is easily incorporated into existing systems, with multiple management solutions. No bells, whistles, or wires, just sleek, reliable security.

Touch type panic exit devices, TOP series

TOP series

The purpose of this new product range is to complete TESA's wide range of exit panic devices and to be able to meet all the increasingly high demands in the market with a product of high technical advantages and a design in keeping with the latest architectural trends. This new range of TESA's exit panic devices presents the following features:

- » Easy reversibility.
- » Compatible with firebreak doors.
- » Very easy to install:
 - Starting with three STD sizes (for doors of 800 mm, 1000 mm and 1200 mm) the bar can be cut to fit in with the width of the door.
 - 35 mm adjusting of the vertical rod devices.
- » Clutched external operating:
 - SENA handle: with an European-profile. Door with + 25 mm.
 - Institutional handle: with an European-profile cylinder

- » Latches present a security device.
- » Low projection.
- » It can incorporate a microswitch.
- » Optional passage function (dogging device)
- » It can incorporate a motorized latch
- » It can be installed on single and double leaf doors
- » STD finish:
 - Fixed bar and vertical rod device cover: anodized aluminium.
 - Central covers and high/low auxiliary locks: SILVER RAL9006.
 - Active bar: SILVER RAL9006
 - Also available in other finishes: lime green, stainless,....

High security cylinder TX80

Technical data

Tx80 cylinders have been designed according to the highest quality protection systems. It is a model in constant evolution that incorporates the most advanced security developments (bumping, picking...etc). A design thought to offer to the user the higher security grade in all its extension.

Characteristics

- » Type: Patented dimple key with security sensor.
- » NO. of rows: 2
- » NO. of pins: 8
- » Technology: Tumbler regular.
- » Permutation level: Grade 6.
- » Corrosion resistance: Grade B
- » Anti pick cylinder lock (High resistance.)
- » Bump proof system.
- » Drill protection grade 2.
- » Lifespan: 100,000 test cycles.
- » Key copies protected with security card.
- » Clutch of double security.
- » 5 patented keys made of nickel silver.
- » Conform to EN-1303 regulation.
- » Master key systems: High capability using side pins and multi profile key ways.

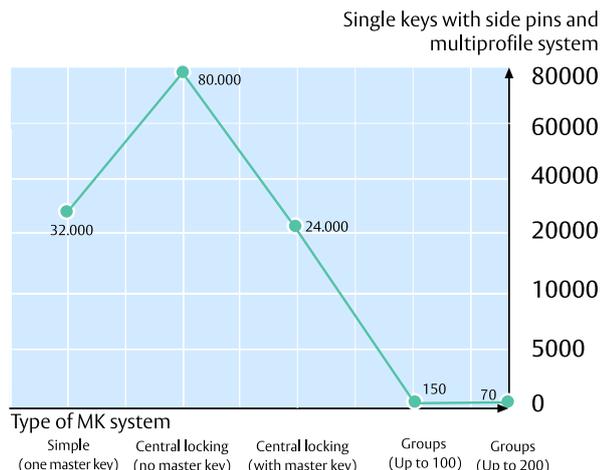

Options

- » Finishes: Brass / Nickel.
- » Cam: DIN R15 and R13.
- » Formats available: Key different, mater keyed, key alike and specific codes.
- » Wide measurement and profile range.
- » Colour points to differentiate master key levels.

Master key systems

The patented character of the system will let the owner control, in every moment, the key copies thanks to the property card provided with each cylinder or master key suite.

European standard regulation

In the same way as the main models included in the catalogue, TX80 is certified according to the European standard regulation.

1	6	0	1	0	B	6	0
Key resistance (Grade 0-1)	Lifespan (Grade 4-6)	Door mass (Not applied in cylinder)	Fire resistance (Grade 0-1)	Safety of the people (Not applied in cylinders)	Corrosion and temperature resistance (Grade 0-A-B-C)	Key related security (Grade 1 to 6)	Attack resistance (Grade 0 to 2)

*Note: with the shield E700 the attack resistance rise to the level 2.

Recommendations

- » Use TESA lubricant to lengthen the maximum lifespan of the cylinder.
- » TESA recomends to the user of the TX80 to keep the property card in a safe and secure location. Only by presenting this card, can one obtain key and cylinder copies.
- » For safety reasons, when you install a new cylinder, remember that once installed, it should not project more than 1mm.

These cylinders are provided with 4 owner keys and one for the assistant.
Both side A and B includes the function.

* To process "master keyed" and "cylinders alike" orders add either AM or KA in each part number, respectively.

** The butler system lets operate with the key from the outside even if knob is blocked. Is a solution thought for schools, geriatrics.. etc.

DC500

Door closer with Cam-Motion® technology and guide rail

ASSA ABLOY DC500

- Door closer with Cam-Motion® technology and height-adjustable guide rail G195 or standard guide rail G193
- Fulfills barrier-free building requirements (DDA / CEN TR 15894)
- Certified in compliance with EN 1154, size 1-4
- Suitable for fire and smoke protection doors
- For single action doors up to 1100 mm wide
- Can be used in four installation types: hinge and non-hinge sides in standard and frame installation

Characteristics DC500

- Can be used with integrated concealed mounting plate, suitable for fire and smoke protection doors
- Can be used for left and right-handed doors
- Axis continuously height adjustable up to 14 mm
- Closing speed, latching speed and backcheck adjustable via front facing regulating valves
- Thermodynamic valves for consistent performance
- Variable adjustable closing force
- Opening angle up to 170°
- Effective backcheck and latching speed range adjustable
- Large range of applications
- Standard colours: silver EV1; white, similar to RAL9016; brown, similar to RAL8014; black, similar to RAL9005, stainless steel
- Customised finishes available on request

Door width up to	1100 mm
Fire and smoke protection	yes
DIN door swing directions	left / right handed
Standard and frame installation	yes
Closing speed	Variable between 170°-10°
Latching speed	Variable between 10°-0°
Backcheck	Variable above 75°
Opening angle hinge side	ca. 170°
Opening angle non-hinge side	ca. 120°
Weight	2.7 kg
Height	64 mm
Depth	57 mm
Width	270 mm
Certified in compliance with	EN 1154
CE marking for building products	yes

The advantages at a glance

Our service for you: here you can see the individual advantages of our door closer models for your respective field of business.

Customer segment	Advantages
Project planners	<ul style="list-style-type: none"> - Extensive range of uses: Fire and smoke protection doors as well as standard doors - Modern design - Compact design - Fulfils barrier-free building requirements (DDA / CEN TR 15894) - Same dimensions and design with and without mounting plate
Builders	<ul style="list-style-type: none"> - One drilling template overall - Adjustable to nearly all door and frame types - Quick and easy installation - Quickly and easily adjustable - Suitable for left and right handed doors for standard and frame mounting on hinge and non-hinge side
Trade	<ul style="list-style-type: none"> - Reduced inventory costs due to modular product range - One single product suitable for a large variety of mounting positions - Complementary accessories available for the whole product range
User	<ul style="list-style-type: none"> - Largely unaffected by temperature fluctuations thanks to thermodynamic valves - Easier door opening and improved accessibility due to rapidly decreasing torque

Specifications for DC500

ASSA ABLOY Door Closer DC500 with Cam-Motion® technology and guide rail in compliance with EN 1154

- Closing power continuously adjustable, EN size 1-4, for doors up to 1100 mm wide
- Closing speed, latching speed and backcheck continuously adjustable
- Can be used with integrated concealed mounting plate, suitable for fire and smoke protection doors
- CE approved
- 14 mm height adjustable arm system for ease of fitting
- Standard and frame mounting on hinge and non-hinge side of the door
- Suitable for left and right handed doors

Accessories:

- Standard guide rail G193
- Height-adjustable guide rail G195
- Mounting plate A120
- Mounting plate A130 for guide rail G193 and G195
- Angle bracket A104 for guide rail G193
- Mechanical opening damper A153
- Mechanical hold-open device A152 (not for fire and smoke protection doors)
- Glass door shoe A166

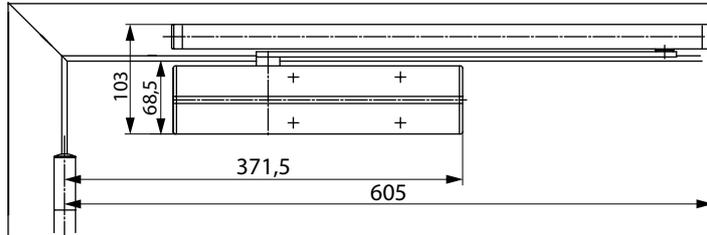

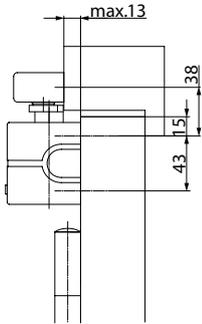

Colour:

- Silver EV1
- White, similar to RAL9016
- Brown, similar to RAL8014
- Black, similar to RAL9005
- Stainless steel
- Customised finish

DC500 Accessories

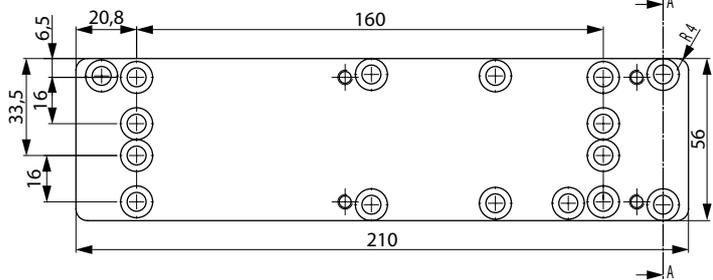

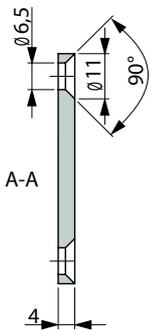

Mounting plate A120
For mounting with drilling template acc. to EN 1154 Supplement 1 and for universal use

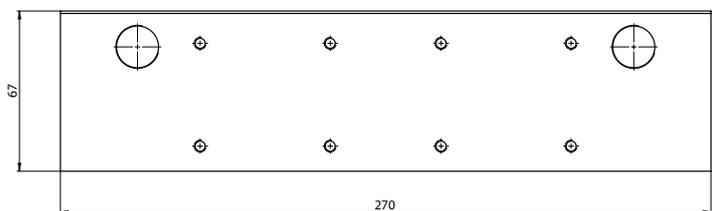

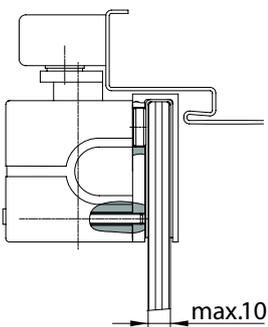

Mounting plate A130
For guide rail G193 and G195

Angle bracket A104
Only for standard guide rail G193

Replacement plate A124
For renovation applications

Glass door shoe A166
For mounting the door closer on the all-glass door leaf.

DC500

Accessories and order placement information

Stainless steel full cover

For DC500 and DC700

Stainless steel design cover

For DC500 and DC700

Hold-open device A152

Mechanical hold-open device for doors which sometimes need to be secured in the open position.

Simple fitting into guide rail G193 and G195.

Hold-open angle max. 130°

Adjustable hold-open force

Not approved for use on fire and smoke protection doors.

Opening damper A153

Helps to prevent the door and door handle from hitting a return wall.

Simple fitting into guide rail.

Opening damper continuously adjustable up to an opening angle of max. 130°.

Does not replace a door stop.
